

## *MARENCO AG goes into the future with new management!*

We are pleased to announce that MARENCO AG in Pfäffikon ZH is moving into a promising future under new management. The company has opted for a new management, led by the experienced Rolf Spichtig as CEO, Andreas Litscher as Head of CAx/PLM Consulting and Raffael Heierli as Head of Engineering. Together, they have taken over 80% of the company shares in order to optimally the company optimally for the future.

With the slogan "from the unthinkable idea to the market-dominating product", MARENCO AG has an interdisciplinary team of experts for product development - from project launch to industrialization. The company relies on experts from the fields of usability, design, UX/UI design, engineering, simulation, CAx/PLM and production to provide its customers with a competent and efficient implementation of their products. The founder and mastermind of the innovative development service provider, Martin Stucki, has placed the main responsibility of his company in the hands of the younger generation, but remains as a consulting expert and continues to support the company with his extraordinary creativity and competence. and competence.

MARENCO AG is a lean company with flat hierarchies and great commitment, which recognizes customer wishes and implements them quickly. Rolf Spichtig brings with him a great deal of experience in company management and has Andreas Litscher and Raffael Heierli as proven managers in their respective fields.

We look forward to accompanying our old and new customers on our way into the second 25 years and to be at your side as an "unthinkable" development partner.

Best regards, MARENCO AG
