

First Level Support

For users of Designcenter NX and SAP-ECTR

Thanks to our expertise and practical orientation, we can optimally support your users in their daily work with Siemens NX and SAP-ECTR.

- Application problems in the system
- Retraining on specific topics
- Error corrections after user errors
- Support in the methodology for model building or WAVE link structures
- Support after rollouts (intensive care)

This service is aimed at users and key users of Siemens NX and SAP-ECTR.

From once a month to several days a week
